**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-11, 27 and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Tonar (USPN 6,193,378) for reasons of record in the Office Action dated 02/05/08 at paragraph 3, which is incorporated herein by reference.

***Response to Arguments***

3. Applicant's arguments filed 09/30/08 have been fully considered but they are not persuasive. Applicant again argues that Tonar fails to teach solid attenuation layers, as presently claimed. Applicant's arguments have been fully considered, but are not persuasive.

4. Contrary to applicant's arguments, Tonar clearly teaches that the attenuation layer may be a single layer wherein the anodic and cathodic materials can be incorporated into a polymer matrix (col. 4, lines 36-38). As noted in the previous Office Action, this clearly establishes that the layer is solid, i.e., a polymer matrix, with the materials incorporated into the matrix. Moreover, Tonar goes on to state that such layers are described in several PCT applications, including the phrase "Electrochromic Polymer Solid Films" in the title. Based on this passage in Tonar, Tonar clearly and explicitly teaches solid attenuation layers, as presently claimed.

5. Regarding applicant's remarks with respect to Tonar at col. 4, lines 12-13, this discussion is with respect to a different embodiment than relied on by the Examiner. Accordingly, these arguments are not persuasive.
6. In light of the above, applicant's arguments have been fully considered, but are not found to be persuasive.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
